

eMail von Siringit Foundation vom 29.01.2025

Dear Michael and Team,

I hope you are doing well, and that 2025 started well for you!

I see I haven't sent the results for Lukas yet, my apologies.

Civics	Chemistry	Biology	History	Kiswahili	Geography	English	Literature	Mathematics	Total
62% C	49% C	77,5% A	68% B	68% B	51% C	57% C	67,5% B	8% F	56% C Division 1

He took exams at the end of November, as the end of the school year. He scored very well again!

Only mathematics is difficult, but in his defense: almost all students score low on mathematics in Tanzania. He ended on the 6th place of his whole year!

Lukas started in Form 4, the last year of secondary school (ordinary level). If he finished the year well, he could have a chance for advanced level of secondary school, but we'll send more information about this later throughout the year.

Lightness started well in Form 1 at Baraa Secondary School, closeby Baraa Primary School.

You can find their both pictures attached. They received their new uniforms and books for Term 1.

Lightness

Lucas

Thank you and have a nice day!

Kind regards,

Marthe
